## **APGO Members Eligible for CCPE Insurance Programs**

Toronto, Ontario – APGO is pleased to announce that its members are eligible to participate in the Canadian Council of Professional Engineers (CCPE) sponsored insurance programs, if so desired.

For more than 50 years, the CCPE has been sponsoring a variety of insurance-type programs. These initiatives assist the well being of members of the constituent associations/ordre, foster a sense of belonging and are seen as value-added. With the buying power of the 160,000 member engineering profession across Canada, CCPE is able to negotiate highly competitive rates and services on behalf of its members.

At the request of the Canadian Council of Professional Geoscientists (CCPG), the CCPE approved the CCPG request to enable participation of interested CCPG members in the CCPE sponsored insurance programs.

CCPE's member services programs are offered and administered by reputable, competent and financially secure suppliers. The quality of the services compares favourably with those available in the general marketplace. All the program suppliers have Internet sites, and most maintain a Web address specifically for their CCPE sponsored programs. The programs include:

**Life Insurance and Major Accident Protection** offered by Manulife Financial

**Home & Auto Insurance** offered by Meloche Monnex

**Disability & Extended Health Care** offered by Maritime Life

**Financial Security Program** offered by Canada Life Assurance Company

**Flexible Mortgage Account** — Manulife one offered by Manulife Financial

Information and contacts for the programs are available on the CCPE website at [www.ccpe.ca](http://www.ccpe.ca), under Programs and Services, Members Services.
