

cYGE GC

Canadian Young Geotechnical Engineers & Geoscientists Conference

*Glen House Resort, Gananoque, Ontario
October 25 – 27, 2007*

Following on the success of the 1st Canadian Young Geotechnical Engineers and Geoscientists Conference (cYGE GC) held at Quebec City in 2004, the 2nd cYGE GC will be held in Gananoque, Ontario between October 25 and 27, 2007. Set at a small resort (www.glenhouseressort.com) in the beautiful Thousand Islands region near Kingston, Ontario, the 2nd cYGE GC will provide an opportunity for the younger members of the geoenvironment and geoscience communities to interact technically and socially in a relaxed and intimate setting following the 2007 Canadian Geotechnical Conference held from October 21 to 24, 2007 in Ottawa.

By combining an interesting technical exchange, keynotes by leading Canadian practitioners and researchers, and networking and team building activities, the aim of the conference is to provide an environment in which attendees will not only be comfortable in exchanging technical learnings, but also form relationships with peers across the country.

For employers and supervisors, the 2nd cYGE GC will provide staff with a unique and valuable opportunity for professional development and networking with Canada's leading young geoenvironment and geoscience practitioners and researchers. The 2nd cYGE GC will also provide opportunities to showcase your organization to this audience and aid in recruiting from the best and brightest young members of the geoenvironment and geoscience workforce in Canada.

Following the 2006 CGS Conference in Vancouver, the cYGE GC committee will be actively promoting the 2nd cYGE GC and soliciting participation and sponsorship for the event. If you are interested in participating in the event by attending, sending a young delegate or providing sponsorship, details are provided on the cYGE GC website at:
