MINING ROCKS!
TORONTO 2005

Mining Industry Conference & Exhibition April 24 – 27 - Metro Toronto Convention Centre

Being held in Toronto in 2005, *Mining Rocks! Toronto 2005* will deliver innovations like the Mine Managers' Forum; a panel of mine managers and senior operators from international mines facilitated by the renowned Brian Tobin, the Investment Forum, student mentoring program, the Innovation Technology Forum, and so much more.

This year, the program will involve a blend of technical sessions and forums. General Lewis McKenzie; Jim Carter of Syncrude; broadcaster Wendy Mesley; Charles Graham of CAMIRO; Roger Nendick of Fluor; and Tony Hodge will facilitate forums on Management Best Practices, Environmental Issues, Sustainability, etc.

In addition, we are introducing an exciting new event — "Mining In Society". Targeting the general public, this "event within an event" will raise the profile of the mining industry while showcasing the many positive contributions our industry has made in our daily life and economy.

And don't miss our Mining Rocks! Wednesday Luncheon Guest Speaker, Ned Goodman, Dynamic Mutual Funds – "Is the Commodity Cycle Over".
